

FEDERICO CABELLO

Software Engineer | Email: fede.cabello@hotmail.com | Portfolio: federicocabello.net

Software Engineer specializing in full-stack systems, CRM platforms, AI automation, databases, and data analytics. Experienced in building business solutions that centralize processes and transform operational data into actionable insights for better decision-making.

WORK EXPERIENCE

Founder & CTO

January 2026 - present.

Proyecto Prisma | San Rafael, Mendoza, Argentina • Hybrid.

- Lead the development of business systems, websites, AI automation, and analytics tools using React, Python, Node.js, Next.js, and Cloudflare.
- Design architectures, APIs, and databases that transform manual processes into tailored digital solutions.

Software Engineer

January 2024 - present.

Los Andes - Enterprise Solutions | Brownsville, Texas, United States • Remote.

- Develop and maintain business management systems, CRM platforms, and websites using Python, React, Flask, Django, TypeScript, and SQL.
- Centralize business processes and deploy solutions on AWS to improve client organization and operations.

Database Administrator

January 2024 - present.

TS Network | Brownsville, Texas, United States • Remote.

- Design, administer, and maintain business databases using MySQL, MariaDB, SQL, and phpMyAdmin.
- Normalize data structures and reduce inconsistencies to improve data integrity, availability, and reliability.

Software Developer

January 2023 - December 2023.

PICAR | General Alvear, Mendoza, Argentina • Hybrid.

- Designed and developed a Java and SQL desktop system for managing products, inventory, sales, customers, and suppliers.
- Replaced manual records with a centralized solution that improved operational control and daily administration.

Independent Software Developer

August 2022 - December 2022.

Freelancer | San Rafael, Mendoza, Argentina • Hybrid.

- Developed REST APIs and custom applications using PHP, C++, JavaScript, SQL, and NoSQL.
- Transformed client ideas into defined scopes, functional prototypes, and implementation-ready software solutions.

EDUCATION

I.C.A.A. Private Teaching Institute.

February 2022 - December 2022.

- Intensive Communicational English Course B2.

9-012 IES Instituto de Educación Superior "San Rafael en Informática" University.

February 2018 - December 2021.

- Advanced Technical Training Course in Systems Analysis and Programming.
